[Note: This document is not complete without all three pages, including disclosures on page three.]

Page 1 Source: Source: The Callan Institute, Periodic Table of Investment Returns, <https://www.callan.com/periodic-table/>.

Page 2 Source: Kwanti Portfolio Analytics <https://kwanti.com/>. All holdings include US, EAFE, REIT, Fixed and 10 Year. Fixed is just AGG, TIP, JNK and 10 Year. US Equity is just IJS, IJT, IVE and IVW. Equity with International is US Equity with EFAFE and EM.

All investments involve risks, including possible loss of principal. Investors should carefully consider a fund's investment goals, risks, charges and expenses before investing. Indexes are unmanaged and one cannot invest directly in an index. Index returns do not reflect any fees, expenses or sales charges. **Past performance is no guarantee of future results. Diversification does not guarantee a profit or protect against loss.** Standard deviation is a statistical measurement of the range of an asset class's total returns over the rolling three year period ending on December 31 of the illustrated year. In general, a higher standard deviation means greater volatility. This information is general in nature and intended for educational purposes only; it should not be considered tax, legal or investment advice, or an investment recommendation. Consult your financial professional for personalized advice that is tailored to your specific goals, individual situation, and risk tolerance.
